

PROFESSIONAL WOMEN IN BUILDING COUNCIL

Join the Professional Women in Building Council

Our Mission: Strengthening the Voice of Women

As part of the Master Builders Association, the local chapter of Professional Women in Building supports, connects and inspires women to collaborate by providing networking events, professional development opportunities and unique ways to give back to the community.

Our council accomplishes these goals by:

- Acknowledging women and their achievements in the building industry
- Providing resources and training opportunities to help women achieve financial independence
- Educating the public on the value of women working in the building industry
- Building coalitions to strengthen the voice of women within the industry

Council Benefits:

- Discount on Professional Women in Building event registrations
- Free Building Women magazine subscription
- Free listing in the National Association of Homebuilders Membership Directory
- Eligibility for awards, continuing education grants, and travel grants
- Networking and social events throughout the year
- Opportunity to mentor future women leaders in the construction industry

I'd like to add value to my MBA membership by joining the Professional Women in Building!
